

What is myON?

myON is a digital reading application that enables students to read anytime and anywhere, 24/7, including weekends, holidays, school breaks, and summer vacation.

This handout provides information about reading books and articles that are available through the **special, shared account** that has been set up for students who are not already reading on their own personalized myON accounts.

Getting started

Students receive login instructions from their school, district, or community.

Once they log in, they can read books within the myON **digital library** and **daily news articles** from myON News.

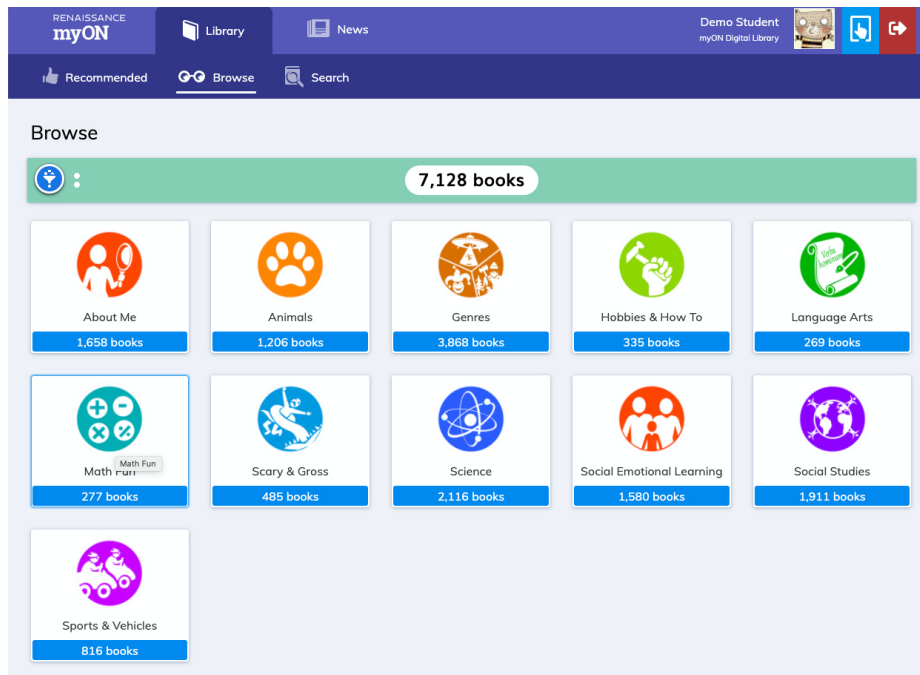

Digital library

Students can browse or search the myON digital library to find books on a variety of topics and themes.

They can:

- Read books online on any web-enabled device that is connected to the Internet
- Read books offline with free mobile apps
- Read the same book as many times as they want to read it
- Use optional reading supports including audio, text highlighting, and an embedded dictionary

Books are available in English and Spanish.

Daily news articles

Students can access myON News to read about current events and other timely topics.

They can:

- Choose from five daily, age-appropriate news articles written just for them and reviewed by a child psychologist
- Access optional audio and multimedia resources connected to each article, including maps, slideshows, videos, and information about the writer
- Extend their knowledge of news topics by reading recommended books from the myON digital library

Articles are available in English, French, and Spanish.

The screenshot displays the myON News interface. At the top, it says 'Today's Edition' and 'RENAISSANCE myON News'. The date is 'Monday, Apr 12, 2021'. There is a search bar and a grid of news articles under the 'Current' tab. The main article is '60 YEARS OF SPACE TRAVEL!' featuring a rocket launch. Other articles include 'Future City on the Moon!', '5 Stories for the Week Ahead', 'Goodbye to a Prince', and 'Mongolia' (with a 'Countries A-Z' tag). A small article snippet mentions a volcano on the island of St. Vincent.
